

W-Pack – hébergement de site internet.

Data Assurance propose la solution W-Pack pour l'hébergement de site internet.

Votre site web sera alors disponible 24/24, 7/7, celui-ci peut être réalisé soit en technologie PHP (v5.2), MySQL (v5.1) soit en HTML, ASP et ASP.NET (v3.5).

Le W-Pack comprend :

- ✓ La possibilité d'héberger plusieurs sites (Espace maximum de 500Mo par site)
- ✓ Accès FTP pour mise à jour
- ✓ Nom de domaine inclus (.com, .net, .org, .info, .biz, .eu, .fr, .be)

Options W-Pack:

- ✓ Statistiques détaillées.
- ✓ Base de données
- ✓ Système de gestion de contenu
- ✓ Web Design de votre site (simple ou statique)
- ✓ Référencement⁽¹⁾ de votre site
- ✓ E-commerce

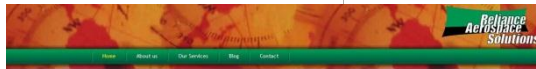

⁽¹⁾ Un bon référencement dans les moteurs de recherche permet de générer du trafic et donc du chiffre d'affaire sur votre site.

Our Mission

"Integrate Airbus with the diversity of cultures and the complexity of personalities - Airbus color - focused from "to technical professionals"

SIMPLE SOLUTIONS ADAPTED TO COMPLEX PROBLEMS

Reliance Aerospace Solutions, an aerospace consultant and Airbus consultant, provides realistic and practical solutions to the ever increasing challenges faced across the industry. Our expert knowledge in the industry is obtained thanks to the experience gained at the major manufacturers such as Boeing and Airbus as well as from Airbus' various major flag carriers, regional Airline or charter airlines.

The services offered are a mix between consultant and specialist service provider, highlighting some of our services such as Asset Management in support of a Line, Reliability Maintenance Review analysis, New Aircraft Certificates whether Airbus or ATR, Engine Table Inspection, BFE management, Aircraft audits, Airbus Organizational Review, Airbus Management and many more.

Based in Toulouse, France, the heart of the European aerospace industry, we pride ourselves on our expert knowledge of the aviation industry and our ability to respond rapidly to our customers' requirements. We are continuously developing our network of capabilities in line with trends identified across the industry, integrating and tailoring the services we provide to match the individual needs of our Customers, whether short term or long term, operational or strategic, and based on the supported customers in place or for want of a better word, clients, being in continuous evolution during the same period.

A SOLUTION PROVIDER WITH RECOGNIZED EXPERTISE

We offer a range of capabilities to the industry namely technical and operations, commercial and marketing, and organization and Business development. During the past 5 years we have achieved continuous growth and profitability while performing services in 47 countries across 1 continent for 43 Customers from 38 different countries, including established small and major Airline, Airline Top Airlines, both and narrow, and our clients.

"An impressive 21 month Lockheed Airline Airline in supporting a Maintenance Contract (with an ATR) which saved the company 400,000 dollars."

William Wrenschy, former CEO of Air Australia as reported in L'Express Magazine n° February 2009
